PROFILE

As a Frontend Developer, my role is to create engaging and visually appealing websites and applications that provide a seamless user experience. I have expertise in HTML, CSS, and JavaScript, and I am familiar with various front-end frameworks such as React, Angular, and Vue.js. I am proficient in using design tools such as Figma, Adobe XD, and Sketch to create wireframes, prototypes, and UI designs. My skills also include optimizing website performance, improving website accessibility, and ensuring cross-browser compatibility. I am a collaborative team player who enjoys working with designers and back-end developers to bring projects to life.

EXPERIENCE

Web Development

Web Development / India, **New Delhi**

- As a frontend developer, your primary responsibilities are focused on the user interface and user experience (UI/UX) of a website or application.
